Javascript ES6/jQuery	REST	Github	React	Wireframing
CSS	Firebase	Terminal	Foundation	Prototyping
HTML	MySQL	Chrome DevTools	AngularJS	Adobe Suite
Gulp / Webpack	NodeJS	Wordpress/Wix	Bootstrap	Balsamiq

#Professional Experience

Web Developer Intern

Jumbo Capture West Lafayette, IN 47906 — January 2018 - May 2018

↳ Built a revolutionary web-app with a team of developers to capture live feed from NCAA basketball games. Utilized facial recognition/computer vision libraries to detect spectators in each frame of the arena's jumbotron.

↳ Programmed with front-end languages and framework to create an effective user interface. Tested app with college students to understand strengths and weaknesses of product.

- Optimized and conducted further tested in Purdue stadium in a crowd-filled game environment. (HTML, CSS, and Javascript, Python, Django)
- Constructed backend server and database to process images for facial recognition and did CRUD operations. Back-end code and systems were tested in an arena film room with live video feed. (Python, SQL, OpenCV, FFMPEG, and PySceneDetect)

↳ Composed app documentation for ease of code readability. University created a legacy project for future development.

Technical Support Intern

A10 Networks San Jose, CA 95134 — July 2016 - August 2016

↳ Executed tasks with network engineering teams to troubleshoot, network servers, routers, switches, and load balancers.

- Advocated to improve an issue in the data center to cut excess power usage and worked with a team to create a remote power grid display application to manage all equipment in data center.

Web Designer

AROY Thai Bistro & Thaiphoon Restaurant Palo Alto, CA 94043 — July 2016 - January 2018

↳ Created modern websites for small business restaurants that enabled online bookings, catering, and online menu thus allowing sales to come from an alternative untapped source. Monthly food catering events and reservation volume increased.

- Orchestrated the collection of email data using physical forms in-house and managed it on MailChimp to do marketing and create dialogue between business and customers.

#Education

Purdue University / B.S Web Programming & Design — January 2016 - May 2018 West Lafayette, IN

U.C Berkeley Extension: Full Stack Dev. Bootcamp — November 2018 - May 2019 San Francisco, CA
